### What is an NFT?

**NFTs** (Non-Fungible Tokens) are **digital certificates** that allow us to **identify** and **secure the ownership of assets**, such as artworks and collectibles, thanks to **blockchain**, a unique registry accessible to anyone whose content, once written down, can no longer be modified or deleted.

Hotel Terme Venezia has therefore used this technology to issue an **NFT that serves as an exclusive ticket** for a unique experience at the hotel. The **NFT will then remain in the purchaser's digital wallet** as a blockchain proof of the participation in the experience.

### Information about the sale

The NFT VeneziaMetaTerme will be auctioned on the OpenSea marketplace and the sale will last one week.

- This is a **dutch auction**, also called a decreasing price listing. The **initial sale price is** set at **0.49 ETH** and during sale week will gradually drop to **0.35 ETH**. You can try to wait for the price to fall, but there is always the risk that someone else will buy the NFT VeneziaMetaTerme in the meantime. You will have to choose the best strategy to win this exclusive pass!
- The NFT VeneziaMetaTerme is minted as a **unique token**, so once it is sold, it will no longer be available.
- OpenSea allows you to bid in WETH during the 7-day auction, but we will not accept any sort of bid. The NFT **can only be purchased in ETH** through the Buy Now button.
